

HYDRANT FLUSHING NOTICE

The City of Marshall Water Department will be conducting its annual fall hydrant flush starting September 17, 2018. Flushing will begin at 7:30 am and end at 3:00 pm Monday through Friday. Flushing will begin in the southeast section of town bordered by **E. Michigan and S. Kalamazoo**. It will proceed from there to the southwest section bordered by **S. Kalamazoo and W. Michigan**. The northeast section will be next bordered by **E. Michigan and N. Kalamazoo**. The last section will be the northwest bordered by **W. Michigan and N. Kalamazoo**. **Michigan Avenue** will be flushed after all other sections are complete. Customers should be aware of change in water pressure and color of their water as these are common characteristics of hydrant flushing. **Motorists are encouraged to slow down and use caution when approaching crews flushing hydrants.**

Thanks for your cooperation.
Marshall Water Department
